INFORMED CONSCENT AND DISCLOSURE

Provider: Michael Woodworth LAc

I hereby request and consent to acupuncture treatment and/or herbal supplement recommendations for me (or my legal charge) provided by the Provider of Acupuncture Services named above and/or other Provider of Acupuncture Services who may treat me. I understand that the Provider of Acupuncture Services will explain all known risks and complications, and I wish to rely on the Provider of Acupuncture Services to exercise judgment during the course of the procedure, which the Provider of Acupuncture Services determines is in my best interests. I may request another person of my choice to be present in the treatment room during treatment

- Acupuncture is a safe and effective method of treatment. However, it can occasionally cause slight bleeding that usually resolves with pressing dry cotton on the spot where the skin is bleeding. It is also normal for the patient to have a temporary warm, tight, sore or tingling sensation at the acupuncture site.
- Traditional Chinese Herbal Supplements recommended are traditionally considered safe. However, some patients may experience gastro intestinal upset or other reactions to the herbs. I will inform the Acupuncture Provider immediately if I experience any side effects. I understand that some herbs may be inappropriate during pregnancy. I understand that I am fully responsible to inform the Acupuncture Provider of any discomfort related to the use of herbal supplements. Some herbs may be inappropriate during pregnancy. I accept full responsibility to Inform the Acupuncture Provider of a suspected or confirmed pregnancy, or if I am a nursing mother.
- Active Release Techniques / Acupressure/ Tui-Na involves rubbing, kneading, pressing, and stroking, etc. • which may result in muscle soreness at the massage site that can last several days. This technique may require disrobing. I understand all attempts will be made to assure my privacy
- Indirect Moxibustion requires burning an herbal material near the skin or on an acupuncture needle. Every precaution is taken to prevent skin contact. But the possibility of skin contact and mild burns exists.
- Cupping involves a localized suction produced by heating a small glass cup. There is a possibility of local bruising from the suction and slight burning or blistering due to the heat involved in the technique.
- Gua Sha involves scraping over a small area by using smooth-edged instruments. There is a possibility that local bruising is likely to occur at the site where it is performed and typically lasts 3-5days.
- Tapping, Plum Blossom, Bleeding, Pricking all Involve multiple needle pricks at a localized site. Slight bleeding and/or bruising at the treatment site is a likely occurrence. Only single-use needles are used in these procedures.
- Electrical Stimulation/TENS uses micro current electricity to stimulate acupuncture points. A mild tingling sensation of electricity will be felt.
- Treatment Using Control Points Ren 1/Du 1. In very rare cases, the Acupuncture Provider may recommend treatment using acupuncture points near the genital organs. If this is necessary, the Acupuncture Provider will notify me and will provide alternative treatments if I am uncomfortable with treatment using these points. I understand all attempts will be made to assure my privacy.

I have read, or have had read to me, the above consent, and have had the opportunity to ask questions and discuss this with my Provider of Acupuncture Services. Article 1: Agreement to Arbitrate: It is understood that any dispute as to medical malpractice, that is as to whether any medical services rendered under this contract were unnecessary or unauthorized or were improperly, negligently or incompetently rendered, will be determined by submission to arbitration as provided by state and federal law, and not by a lawsuit or resort to court process except as state and federal law provides for judicial review of arbitration proceedings. Both parties to this contract, by entering into it, are giving up their constitutional right to have any such dispute decided in a court of law before a jury, and instead are accepting the use of arbitration.

This agreement is intended to bind the patient and the health care provider and/or other licensed health care providers or preceptorship interns who now or in the future treat the patient while employed by, working or associated with or serving as back-up for the health care provider's clinic or office or any other clinic or office whether signatories to this form or not.

The neutral arbitrator shall then be the sole arbitrator and shall decide the arbitration. Each party to the arbitration shall pay such party's pro rata share of the expenses and fees of the neutral arbitrator, together with other expenses of the arbitration incurred or approved by the neutral arbitrator, not including counsel fees, witness fees, or other expenses incurred by a party for such party's own benefit.

Either party shall have the right to bifurcate the issues of liability and damage upon written request to the neutral arbitrator.

The parties consent to the intervention and joinder in this arbitration of any person or entity that would otherwise be a proper additional party in a court action, and upon such intervention and joinder any existing court action against such additional person or entity shall be stayed pending arbitration.
